

Contemporary Jewel Mahogany Lecterns with black anodized aluminum uprights. They are great looking solutions for your presentation needs.

These 49" tall lecterns provide a modern style that will match your current décor. The spacious reading shelf measures 26.75" wide x 16.75" deep providing enough room for your speaker.

©2004 George Patton Associates, Inc.

Made from a combination of clear acrylic and anodized aluminum this lectern has a modern look unlike anything else. Created as an update to our contemporary lectern series, all of the hardware can be seen through the clear acrylic.

The 3/4" thick top surface (26.75"w x 15.25"d) is spacious enough to hold an open 3-ring binder and has a 3/4" high, 1/2" thick lip to keep notes and books from sliding off. The base (26.75"w x 14.75"d) is also manufactured from 3/4" thick clear acrylic and has four clear rubber feet, one at each corner.

The body of this lectern contains a 1/2" thick clear front panel and a 1/4" thick clear back panel. The front and back panel are separated by two 3/4" thick clear spacers that run the height of the body. The satin anodized aluminum sides complete the body and hide part of the spacer on this 64lb lectern. Atop the aluminum extrusion is a mounting plate for the top shelf. Overall height is 48"
